Subject: RM 10.9, Figures....

Hi Stan,

I understand you discussed creating/updating several figures with Amy, as follows:

- Update maps of active cap layer installation locations, including the area where AquaGate only was installed.
- Update maps of QA/QC active layer sample locations, along with corresponding depths.
- Create a map showing the limits of the undercut areas, to provide a clear indication of where the Type B stone will be placed.

Please create/update these maps, as described.

Thanks,

Stephanie
